## SUMMARY

Junior full stack developer transitioning from successful career as technology auditor. Detailed, fast learner, clear communicator, and supportive team player. Excited to start building web products and solutions.

## SKILLS

**Languages:** JavaScript, HTML5, CSS3, SQL, NoSQL

**Databases:** MySQL, MongoDB

**Libraries/Frameworks:** Node, Express, jQuery, React JS, Bootstrap, Handlebars, Mongoose

**Applications:** GitHub, Heroku, Postman

**Soft Skills:** Strong Communicator, Problem Solver, Detailed, Fast Learner, Team Player

## PROJECTS

**Cup-O-Sugar | GitHub:** [github.com/bfourGitHub/cup-o-sugar](https://github.com/bfourGitHub/cup-o-sugar) | **Deployed:** [neighborhood-cup-o-sugar.herokuapp.com/](https://neighborhood-cup-o-sugar.herokuapp.com/)

**Summary:** A hyper-local sharing experience for users to give and get free items from neighbors.

**Role:** Created Mongoose database models and backend API calls, integrated with Cloudinary for photo uploads. Assisted front end team with back end API calls.

**Tools:** JavaScript, Node, Express, Axios, Bcrypt, passport, mongoose, React, Bootstrap, Cloudinary 3P API

**Feast with Friends | GitHub:** [github.com/SeattleSal/feast-with-friends](https://github.com/SeattleSal/feast-with-friends) | **Deployed:** [feast-with-friends-plus.herokuapp.com/](https://feast-with-friends-plus.herokuapp.com/)

**Summary:** Recommends a list of restaurants that match the users' dietary restrictions and specified location.

**Role:** Created MySQL models, controllers, backend APIs, utilized 3P API (Yelp) and helped with handlebars.

**Tools:** JavaScript, Node, axios, bcrypt, passport, handlebars, MySQL, sequelize, Yelp 3P API

## EXPERIENCE

**Senior Manager Tech Audit | Tech Audit Manager, Amazon, Seattle, WA, January 2017 – March 2020**

Led audit risk assessment and created prioritized audit plan for Devices, Alexa and Digital Content spaces. Reduced security and process gaps by performing end to end audit projects over products, technologies, services and processes including testing configurations of Amazon Web Services (AWS) Identity and Access Management and S3 services.

## ADDITIONAL EXPERIENCE

Reduced risk profiles of organizations by evaluating the tech landscape, identifying areas to audit and performing audit projects through the lifecycle of planning, testing and reporting. Audited system implementations, information security processes, data centers, retail privacy practices, international joint ventures and more. Led professional practices efforts to streamline audit processes and trained auditors on testing IT General Controls including software development lifecycle processes and systems access controls. Additionally, managed a team and onboarded and mentored several new audit employees.

- Senior IT Audit Manager, Outerwall, Bellevue, WA, November 2015 – October 2016
- IT Audit Principal, Nordstrom, Seattle, WA, April 2013 – November 2016
- Audit Manager | IT Audit Project Manager, Starbucks, Seattle, WA, May 2006 – March 2013
