Role: Created search and search results page, made 3P API calls for trail information.
Tools: JavaScript, jQuery, 3P APIs (Trails and Google Maps), Bulma, CSS, HTML

EXPERIENCE
Senior Manager Tech Audit | Tech Audit Manager, Amazon, Seattle, WA, January 2017 – March 2020
Led audit risk assessment and plan for Devices, Alexa and Digital Content spaces by performing risk analysis and determine prioritization of planned projects. Performed end-to-end audit projects over new products, technologies, services and processes. Reduced security and process gaps by testing setup of Amazon Web Services (AWS) Identity and Access Management and S3 services.

ADDITIONAL EXPERIENCE
Reduced risk profiles of organizations by evaluating the tech landscape, identifying areas to audit and performing audit projects through the lifecycle of planning, testing and reporting. Audited system implementations, information security processes, data centers, retail privacy practices, international joint ventures and more. Led professional practices efforts to streamline audit processes and trained auditors on testing IT General Controls including software development lifecycle processes and systems access controls. Additionally, managed a team and onboarded and mentored several new audit employees.
- Senior IT Audit Manager, Outerwall, Bellevue, WA
- IT Audit Principal, Nordstrom, Seattle, WA
- Audit Manager | IT Audit Project Manager, Starbucks, Seattle, WA
